Making sense of online conversations

- Netlytic is a cloud-based **text and social networks analyzer** that can automatically summarize and discover **communication networks from publicly available social media posts**. It uses public APIs to collect posts from Twitter and YouTube. It also supports the analysis of your own datasets.
- The platform is ideal for **teaching and learning about social media analytics**. It is currently being used by hundreds of educators and thousands of students around the globe. Netlytic also supports **social science research on online participation and communities**.
- We at Netlytic **promote ethical research with social media data**! This means that in addition to respecting the social media sites' terms of service, if you are using Netlytic, you are responsible for reviewing and following ethical guidelines and best practices established by your institution when working with social media data. Please also review the **Ethical Decision-Making and Internet Research Recommendations** by the Association of Internet Researchers.

The protest against the Covid-19 measures in Berlin

Berlin Demonstration

Boltcutter @Boltcutter161 · Aug 29

Went to the Brandenburger Tor after a while, felt a lot more tense there and left rather quickly, didnt like being alone among Q followers and people with Reichsflaggen [#Berlin2908](#) [#BerlinDemo](#) [#b2908](#)

I am ashamed to say that these images came out of my country today.

We teach our dark history so much in order to prevent such hate from ever taking over again, but these [#be2908](#) protesters nonetheless tried to storm our Parliament alongside Neonazis.
